

Capacent Female Talent Program_

Your future starts tomorrow.

Are you a motivated female student who is curious about a career in management consulting? If so, Capacent now offers you a unique opportunity!

Why is Female Talent Program unique?

Capacent Female Talent Program is focused on *your* personal development. The program is a one of a kind opportunity to improve your problem-solving skills, get to know yourself and your strengths, and shows you Capacent's view of management consulting - the Nordic way. You will also listen to inspiring women from the industry talk about their experiences. The program includes three half-day workshops focused on hands-on tools and skills relevant for your future working life, where the last workshop ends with an overnight stay at Yasuragi spa.

In addition to the workshops, a consultant will be assigned as your personal coach throughout the program. You will also meet several Capacent consultants during the workshops, providing you with insights into our culture and ways of working.

Who are we?

Capacent is a Nordic management consultancy firm focused on doing management consulting "The Nordic Way". This means a flat organizational approach which allows everyone to speak their mind and create change from day one. Our way of communicating is plain, honest and direct. One of Capacent's main goals is to help its consultants grow and to provide them with the best conditions to do so. Since we always strive for long-term cooperation with our clients, it is natural for us to work within different areas. Our main ones include: Operations, Finance, Strategy & Commercial and Business Analytics.
