

Eos – the Atlas Copco Finance Internship, 2019

We are looking for future colleagues!

Join us at Atlas Copco for our spring internship of 2019 with focus on financial and business control!

Just 10 minutes from Slussen in Stockholm lies vital parts of the Atlas Copco Group. It is the home of several of the Atlas Copco divisions and subsidiaries as well as most of the Atlas Copco group functions, which coordinates the financial reporting and compliance for the global operations. We are now looking for a curious and committed person, to join us in our spring internship 2019, and hopefully even longer!

The Internship

The program is hosted by the Group Controlling department, a small but dynamic team that will give you the perfect start to your career within Atlas Copco. We are an interactive department with open communication channels to all of our 400 subsidiaries around the world, and close connection with Group Management. Other departments in the Stockholm location are partners in this program, so you will be able to experience the Atlas Copco operations from several perspectives and meet people from different corners in our organization.

The internship will run during the spring of 2019. The aim is for you to be able to combine the program with your studies. Finding the right candidate is important to us, so the design of the program can be flexible to accommodate you, but our intention is to have you with us at least 10 hours per week. The focus of the program will be on financial and business controlling, on how we work with financial transparency and how finance influence our operations and the decisions we make.

Who are you?

We want to get to know you, and for you to get to know us. We think that you are a dynamic and interested person who would like to find out more about Atlas Copco and our global operations. We think that you are a social and analytical person with an adventurous mindset, that you care about progress and innovative thinking, and that you will be a great asset to our team. You are ambitious and like to set your own bar, and set it high. You have between 1 to 3 semesters left of your studies before you graduate from your university studies in the areas of business, finance, economics or accounting. You are fluent in written and spoken English.

Who are we?

We are a world-leading provider of sustainable productivity solutions. Customers benefit from our innovative compressors, vacuum solutions and air treatment systems, construction equipment, power tools and assembly systems. Atlas Copco develops products and services focused on productivity, energy efficiency, safety and ergonomics. The company was founded in 1873, is based in Stockholm, Sweden, and has a global reach spanning about 180 countries. In 2017, Atlas Copco had revenues of BSEK 86 (continuing operations) and 35 000 employees.
