

About us

Cool Company's vision is to bring together companies and freelancers. For 10 years we have simplified the lives of freelancers by alleviating financial administration. For businesses we can now help organize their external workforce, make it easy to invoice and enable overview of projects. Simply put – businesses and freelancers can focus on what they do best, and Cool Company takes care of the administration.

Internship focus

- Create digital content and assist us in our social media.
- Develop our communication channels.
- Analyze and craft strategy recommendations based on data from Google Analytics and our Business Intelligence software.
