

What you won't find in ABG Sundal Collier's decision-making tool box:

▲ Flipping a **coin** or **crow** is a method of deciding between two alternatives with a random yet equally probable outcome for either option.

We leave relying on luck to others.

Good advice is the result of thoughtful analysis by hardworking and talented employees.

ABG Sundal Collier is enjoying a strong momentum with a clear focus on growth and are therefore looking for interns to strengthen our Investment Banking and Equity Research divisions in Stockholm. We are currently looking to recruit interns for off-cycle internships starting in fall 2020.

ABGSC is an independent, Nordic investment bank, founded over 30 years ago based on a hard-working partnership culture and the ability to attract top talent. We offer services within Corporate Finance, Brokerage and Research.

The internship programme consists of minimum 8 weeks off-cycle internships where interns get to participate in the ongoing business and experience the inner workings of a premier Nordic investment bank. Interns work closely with senior team members and have the possibility to assume a large share of responsibility early on.

Eligible applicants should have a high motivation and strong personal drive, good academic results and an interest in areas such as the financial markets, valuation and strategic analysis. Please note that proficiency in Swedish and English is required.

Please submit your application on www.abgsc.com/recruiting.

Applications are reviewed on a rolling basis.
