Insights Consultant Intern Spring 2021

WHO WE ARE

We are an internationally established boutique style company that works in the intersection between psychology and business performance. With an international client base, we work on an organizational as well as individual level. Where we are experts in driving change both in terms of leadership development as well as for large organizational transformation projects. Our aim is to lead the development within human capital through knowledge and experience.

We are a flat organization, where we believe all of our employees should have the responsibility and capacity to take initiatives and have a real impact on our business to make sure we are continuously growing. We are highly team oriented in our way of working, where we focus on creating a dynamic and energetic culture. This allows us to learn from each other and continuously improve our results and expand our organization.

WHO YOU ARE

Our consultants are our core asset, we want you to be an energetic individual who is driven to develop both Cohr Group and the business of our client's. You will be a part of the team working with our client's organizational transformation projects. This includes analyzing current processes, creating tools, identify areas of development and generate and implement new strategies concerning data-management within the project. As well, you will have the opportunity to work on the individual-based part of the business assisting in leadership assessments for recruitment and development purposes using psychometric testing and analyzing interview results. At Cohr Group your ideas will be recognized and you will have the opportunity to work within all areas of the company and contribute to the company's success and continued growth.

Our Requirements

- Passion for developing individuals and organizations, from a business perspective
- Proactive and energetic with a strive for excellence
- Strong Social competence, including capacity to work in a team and create a positive and future-oriented atmosphere
- Highly self-driven, well-structured and able to think strategically / end-to-end

Experience

- You have a University Degree in Statistics, Economics, or related field, or is in your final year of your degree
- Documented will and capacity to deliver quality under high pressure
- Outstanding academic track record
- Superior problem-solving skills and ability to work well under pressure in a demanding environment
- Substantial capabilities in statistics and data-management
