

Part time asset management position

INTERNATIONAL SWEDISH IT COMPANY IN UPPSALA LOOKING FOR ONE OR TWO STUDENTS ON A EXTRA CURRICULUM PROJECT

Join a fun, innovative, hard working, passionate team that brings the latest technology to retailers. The internship will take place part time from Uppsala, Sweden. We could meet once a week for a few hours to bounce ideas and look at progress.

Normally you work alongside our Uppsala based co-founder so everything the company experiences during your stay you will experience. For the best experience for you we find a special project and goal that you will be responsible for during your stay. Example of companies and projects we work with: GANT, Calvin Klein and Apotek Hjärtat.

The project we would like help with is to make a list of saving options that generate 1.5 - 8% interest rates annually. We imagine that many companies in Sweden have this challenge. We see saving options like Tessins in Swedish real estate with 8 - 12 % interest at a high risk. And we see (few) banks offering 1% to companies. So we thought it would be interesting to analyse the gap in for example foreign currencies, foreign state debt. If we succeed with a nice 10 - 20 page inventory we would be happy to finance to publish this work into a small handbook that could be fun to give out for you as part of your curriculum.

We also have topics for a thesis in case you are planning to write something this fall. Don't hesitate to reach out and say hi.

If you are interested in joining us from February 2021 please send a few sentences about yourself (Swedish is ok too), why you would be happy to work pro bono on this project and how much time per week you would be willing to work along with your CV to: management@id24.org
